UFO English is Langports' unique general English program and is divided into 3 main components (U, F & O).

USE is an integrated skills class, covering all English macro skills (writing, reading, listening & speaking) as well as grammar, vocabulary and pronunciation.

FOCUS is the macro-skill program, where on each day (Tuesday – Friday) students attend a separate macro-skill class to help improve their strengths and weaknesses.

OPTIONS gives students a choice of what they study, depending on their level. Students studying full-time can choose an option class from a variety of subjects enabling them to achieve their learning objectives.

First Day

Orientation – students are tested and interviewed on their first day and a **personalised study program** is devised to guide students to achieve their study objectives. Their first class starts in the afternoon (for full-time students).

Second Day

Students receive their personal timetable, course book and begin their **personalised study program**.

Every Monday

Students have an **individual interview** with their USE teacher to review their progress.

When students develop their skills quickly, they can move through the levels at their own pace, optimising their learning progress.

Long-term students are tracked and receive academic counselling to ensure they continue to progress.

Graduation

Students are awarded a certificate* showing their levels for all classes, options choices, attendance, participation and teachers comments.

*80% attendance or above is required.

We would like to show you how the UFO English program benefits our students, by illustrating examples of the following three students who all arrived at Langports on the same day:

Luciana from Brazil

Learning Skills: In Brazil, Luciana had two years of English at high school. She has had little exposure to the language.

Learning Ability: Luciana has tried to learn other languages, but has always found it difficult.

Learning Objectives: She would like to study her Masters in Accounting at an Australian university.

Level test results:

Writing - 3 Reading - 3
Listening - 4 Speaking - 4
Average - 3.5

Akiko from Japan

Learning Skills: Akiko studied English in junior high school. She has been receiving private lessons at night, but not one of her teachers were native speakers, and she only learnt from books.

Learning Ability: Akiko has great difficulty learning a language which is very different from Japanese.

Learning Objectives: She would like to be a teacher when she returns to Japan.

Level test results:

Writing - 4 Reading - 4
Listening - 2 Speaking - 2

Level test results:

Writing - 2 Reading - 3
Listening - 4 Speaking - 4
Average - 3.25

Luciana, Akiko and Daniel are given their own timetables (below) and follow their own Langports Study Plan to meet their individual objectives. On the first morning of classes, they all go together to Level 3 for the USE lesson. After the morning break, they go their separate ways to classes appropriate to their language skills. The afternoon session finds them all in different classes too, specific to their study goals. *(Please note that these students are case studies only. Their names have been changed for privacy).*

Our teachers specialise in Cambridge preparation and are trained in lexical-grammatical approaches to language teaching and learning. In our closed courses, many of our resources are unique:

- ✿ Langports writes and publishes some of its own materials for this course, supplemented with material from traditional Cambridge textbooks
- ✿ Langports is a Cambridge centre for paper-based and computer-based exams

IELTS 1 & IELTS 2

IELTS 1 & 2 are Langports' intensive IELTS preparation programs, focusing specifically on the academic version of the IELTS exam.

These programs are developed to improve not only the 4 macro-skills essential for the IELTS exam (listening, reading, speaking and writing) but also to provide an in depth focus on the micro-skills such as reading techniques and strategies, spelling, grammar and speaking test strategies.

EAP focuses on improving the students' English skills as the foundation of the desired outcomes. The course provides students the opportunity to improve their score in the IELTS exam and to be confident with their production skills (writing and speaking) in an academic context.

English for Academic Purposes

Langports' EAP program is designed for international students who need an intensive preparation to take further studies in Australia. It combines the two elements required to enter and succeed in a vocational or tertiary program in Australia: IELTS exam preparation and academic preparation.

Students are taught how to complete tasks and assignments expected at a university level, including:

- a 2000 word academic essay
 - research skills, speed reading, notetaking, drafting, writing and referencing
